## 2011

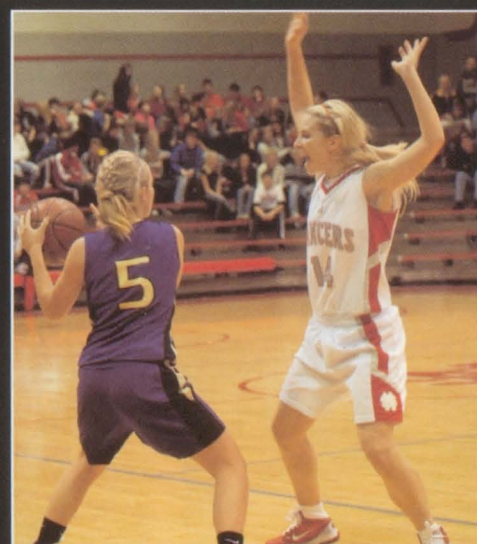

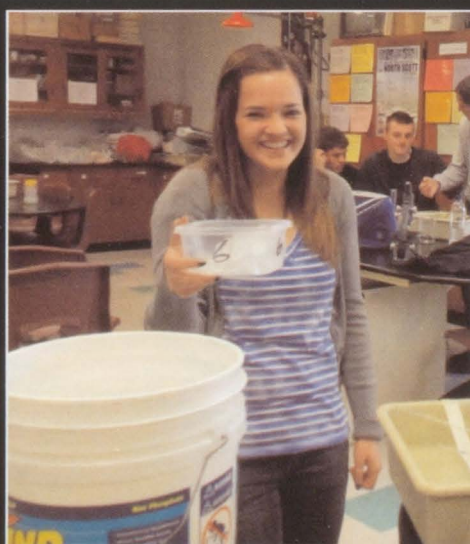

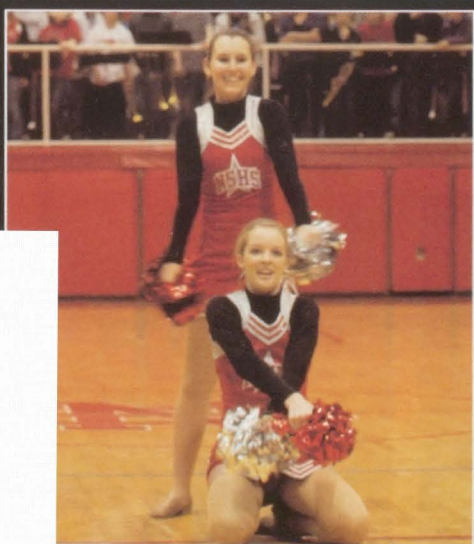

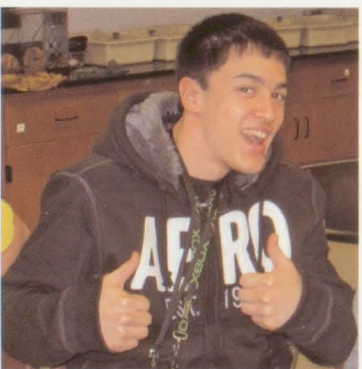

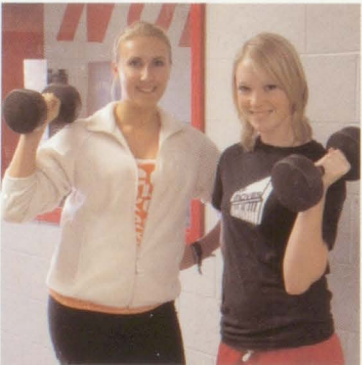

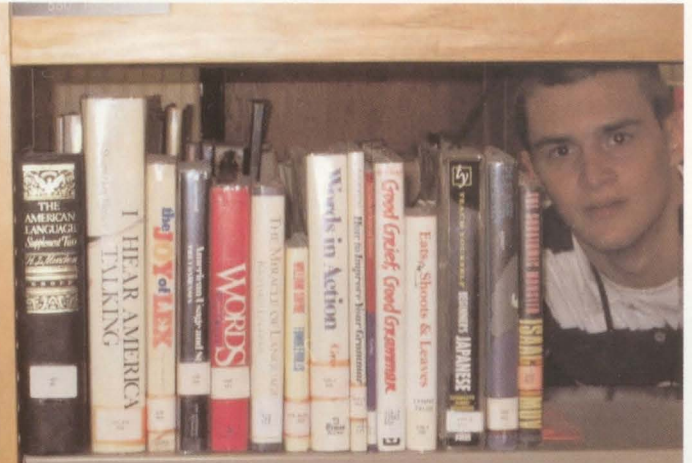

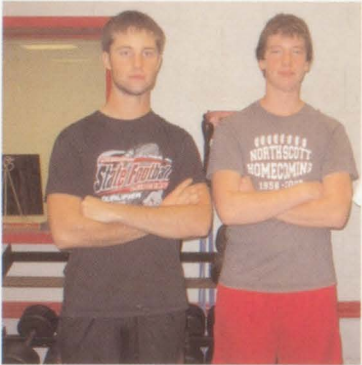

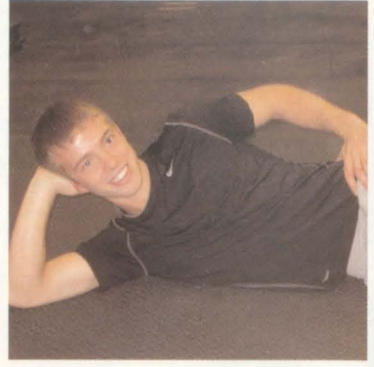

*High School. This is the **time** of our lives. One of the many chapters we endure throughout, whether it be good or bad. This is the **time** we make memories, friends, and challenge ourselves in bettering our knowledge. It is the **time** to step out of the box and try new things. Try out for a different sport, throw yourself into trying drama, or even better your leadership skills in Student Government. The possibilities are endless in High School. And North Scott is the perfect place to begin. It is **time** to begin...*

*--Chelsea White, Editor-in-Chief*

*--Michelle Wedemeyer, Assistant Editor-in-Chief*

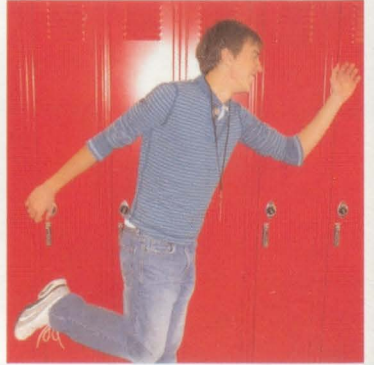

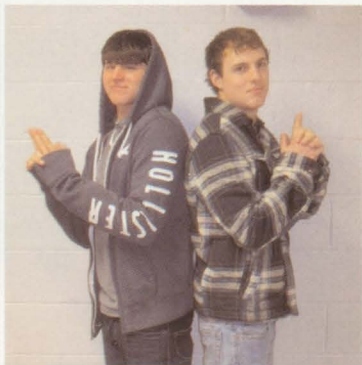

*Congratulations Class of 2011. We did it! After four long years, our journey as high schoolers is finally coming to a close. Balancing homework, extra curricular, work, and a social life seemed hard at TIMES, but will be worth it in preparing us for the road ahead. With college just around the corner, let us not forget the memories that were made in these hallways and the people we have grown close to. High School can be considered the best TIME of our lives, but this is just the beginning. So now let us raise our hats and congratulate each other on a job well done! May our success continue throughout the years ahead!!*

High school will be remembered as the best days of our lives, but it will be over in the blink of an eye. We make the best of friends, plan our future, and do our best to figure it all out. During these past few years we've broken the rules, failed tests, and stayed up too late studying for that test we put off. Now is the time to look forward to the future, and stop dwelling on the past. We've accepted our mistakes because we realize they only make us better and more prepared for the future. So as we go into our senior year we have begun to grasp what is soon to be the start of adulthood.

Sophomore year is another year but a year for creating more good memories. No longer freshmen, sophomores finally know the school. No getting lost going to classes and having the fear of getting shoved in a locker. Sophomores are now able to associate with the rest of the school and not be separated. Being a sophomore is like being stuck in time, very little has changed and three more years of high school. It's another year of games, learning, activities and parking in the tennis courts. Next year will be the year to finally be upperclassmen!

9. Sophomores working hard in the classroom.

*Freshman Year, New school, New life. This is a time for exploring new interests and goals. Freshmen are eager to see what challenges lie ahead and will always pursue their dreams. It's all about choice, what classes to take, what activities to join, and even who your friends will be. The next four years will test your determination to succeed in classes, sports, and your social life. This is a time to think about the future and how to play a part in it.*

Fall 2010 started out like many years, rushed, busy and yet exciting, Since I am a freshman teacher, this year was particularly interesting because this year's seniors were the first class to be a part of the freshman house. It was interesting to have the entire building have had experience with houses. The freshman came in like, other classes before them full of excitement, trepidation, and downright fear. They have matured greatly this semester with the halls being less loud, the homework starting to come more frequently and the attitudes being more of teamwork. I look forward to another semester of seeing the freshman grow closer to being sophomores and the seniors being closer to freshman, again.

*Student Life is as it says. Students living, breathing, dancing, giving, talking and laughing at North Scott High School. This is exactly what the students are here to do. School dances, sporting events, and clubs are just a few ways the students get involved. We live by the Lancer code: Do not bully or harass others, help those who are bullied or harassed, include all students and report bullying and harassment to a trusted staff member. It is the Lancer way: to respect all people and to protect those who need it.*

Another successful year of athletics has come and gone, saying that it shall not be forgotten is an understatement. We've made the first of many marks for North Scott during the 2010-2011 season. Winning our first playoff game for football and going to state for wrestling are just a few of our North Scott athletes accomplishments. Hard work and determination have helped these athletes to the top, but the support of a team behind a player makes it all the more gratifying. Wins are satisfying for the moment, but the memories will remain and the bonds will stay strong for a lifetime.

# Trap Shooting

## *safety*

### *Precautions and Simple Rules*

1. Guns must be pointed down at all times.
2. The action of the gun must be open at all times, unless the shooter is on the field.
3. Always have the gun safety on while being off the field.
4. Never rest gun on the top of your shoe.
5. Always wear closed toe shoes.
6. Always carry an extra shell or two while on the field.
7. Always wear safety glasses while on the field.
8. Always wear ear plugs while on the field.
9. Always have a shell catch so that the person next to you doesn't get hit by them.
10. Always have fun while being on the field.

## *What is Trap Shooting?*

Trap shooting is not a well known sport, and is the newest addition to the North Scott School District. Trap shooting consists of teams of five. One team shoots at a time, and each shooter goes to a different station on the field which is shaped like an arch. Each shooter will shoot five times at each station and will pull the trigger a total of twenty-five times by the end of the round. The clay birds are launched out of a machine called the trap house which is in the center of the arch. The trap house throws the birds in different directions and at tough angles to make it challenging for the

shooter. To indicate that the shooter is ready for a bird to fly, they say "pull," as soon as the bird is launched, the shooter must adjust aim to gauge the speed and angle of the bird, in order to hit it at the right moment.

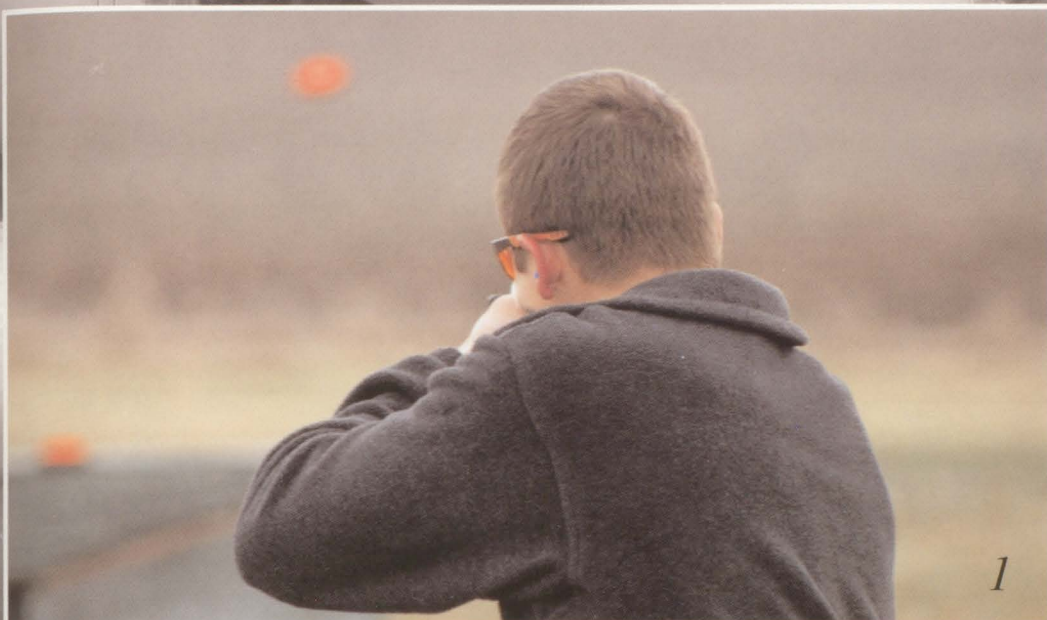

We are fortunate to have the opportunity to enjoy this sport and to compete with other schools from the area. We are also lucky to practice and host our meets at the Clinton County Sportsman Club, located in Dewitt.

*Abby Fredericksen*

## *Team Practice*

1) Wyatt Eaten aims for a clay bird. 2) Coaches Bart Lund, David Fredericksen and Mark Copely give a few of the team members tips when shooting. 3) Coach Brian Suhl gives shooter Jake Moore tips. 4) Jamie Gray tells shooters Quentin and Wyatt Smith good luck. 5) Claire Fredericksen prepares for her next time to shoot.

Another year has come and gone at North Scott, and the year of 2010-2011 did not disappoint. Between the students and the teachers, technology is more a part of everyday life than ever before. Students are now bringing their personal laptops for note taking and projects. iTouches, iPhones and laptops are also doubling as calculators, dictionaries, encyclopedias and study guides. Most teachers are using Promethean boards rather than white boards, over-heads or televisions. To make it all work, students are uploading papers and presentations to turnitin.com - plagiarism is a thing of the past.

*Performing arts is an experience for every student to have. It gives a student a chance to shine and be in front of an audience. It takes talent, courage, and skill to perform in front of parents and friends. Whether it is singing, playing an instrument, or acting it takes time and lots of hard work to become the best they can be. Each student in performing arts strive to do their best and work hard. This can be seen on the hours spent working and rehearsing on pieces of music or scripts just to play and entertain an audience. Even though hard work is what is needed for most of the students, it also takes a lot of heart and passion to become the best they can possibly be. And to always remember to have tons of fun along the way.*

North Scott offers many opportunities to participate in clubs. Each student has the possibility of finding the perfect club like Student Government, FFA, Speech Club, FCA, etc. The goals of all the clubs are to meet new friends, develop new interests, help the others and spend *time* together. Even though clubs do not offer a credit each individual involved puts in 110% effort. Clubs give the students an opportunity to meet students that share a common interest and to display their talents and give back to the community.
